Resolution on Randolph Avenue Construction

WHEREAS the residents and small businesses of Randolph Avenue have provided a great deal of input on whether to reconstruct or repave the roadway,

WHEREAS businesses have expressed concerns about the impact full reconstruction will have on their lives and livelihood,

WHEREAS the primary concern of local businesses is ensuring customers and suppliers have full access to their business, and customers are aware they have access,

WHEREAS simultaneous construction projects elsewhere in Highland Park will cause further traffic disruption and reduce the availability of alternate routes,

BE IT RESOLVED that the Highland District Council asks Ramsey County to:

- Publicly state its final decision to reconstruct or repave through a presentation or letter
- Work closely with businesses in the project area to maintain full access for customers and suppliers, and keep the public informed of detours and how to access businesses
- Share information on any available programs to support small businesses through the construction period

Approved on June 5, 2014
