Resolution on Bus Parking on Madison Street at West 7th Street

WHEREAS numerous Metro Transit buses lay over on Madison Street adjacent to the McDonalds restaurant property,

WHEREAS in 2012 the Highland District Council reviewed site plans for the McDonalds renovation and noted grave concerns about parked buses blocking visibility from the new driveway planned for the southeast portion of the site onto Madison Street,

WHEREAS City of Saint Paul Public Works representatives agreed with the HDC's recommendation of making curb cuts to extend the street to provide parking for two Metro Transit buses,

WHEREAS Madison Street was subsequently reconstructed without the agreed upon provisions, and the current McDonalds site plan makes no such provision, leaving a very dangerous condition for motorists,

BE IT RESOLVED that the Highland District Council asks Public Works to urgently address visibility from the new driveway.

Approved on June 5, 2014
