Resolution on Randolph and Lexington Avenues Bus Stop

WHEREAS the current location of the eastbound Metro Transit bus stop on Randolph at Lexington Parkway is untenable due to the pending construction of a right turn lane from eastbound Randolph onto southbound Lexington,

WHEREAS the new Route 83 bus line on Lexington providing service to the Green Line will increase passenger traffic in the area,

BE IT RESOLVED that the Highland District Council supports moving the eastbound Randolph Avenue bus stop to the far side of the intersection (east side of Lexington Parkway), or as a secondary option, moving the stop further west from the existing location to accommodate the new right turn lane.

Approved on XXXX, 2014
By the Highland District Council Board of Directors
