Resolution in Support of a Height Variance the St Paul Academy Expansion

Whereas Saint Paul Academy (SPA) has requested that the property at 1712 Randolph Ave receive a height variance for 20' -1" for the portion of the building height of the Stage area, which is proposed to be 50'-1: and a variance of 5'-5" for the Audience chamber, which will be 35' -5"(the same elevation as the existing adjacent gym.

Whereas SPA has met with the Community Development Committee of the Highland District Council on January 21, 2014 and on March 18, 2014 to present preliminary plans and answer neighbors' questions about the expansion project,

Whereas the neighbors that attended the community meetings supported SPA's expansion project,

Therefore, be it resolved, that the Highland District Council supports the request for a Height Variance on the expansion at 1712 Randolph Ave

Approved on April 3, 2014
By the Highland District Council Board of Directors

Resolution 2014-05D
