

CITY OF SAINT PAUL

Christopher B. Coleman, Mayor

1500 City Hall Annex
25 W. Fourth Street
Saint Paul, MN 55102-1660

Fax: 651-266-6222

October 16, 2015

Dear Saint Paul Resident / Property Owner:

On August 5, 2015 the Saint Paul City Council directed Saint Paul Public Works to form a Community Working Group to develop a neighborhood-supported north-south bicycle route that runs from Randolph Avenue to University Avenue between Fairview Avenue and Mississippi River Boulevard. The Community Working Group is comprised of representatives from local District Councils, businesses, bicycle advocacy groups, and nearby colleges. **The Community Working Group is considering a bike route on either Cleveland Avenue or Prior Avenue.**

Wednesday, October 28th the Community Working Group is hosting a public Open House to present findings and potential recommendations to the community.

This Open House will be held at:

Saint Catherine University Coeur de Catherine Ballroom
2004 Randolph Ave
Saint Paul, MN 55105

See map on the backside for parking and open house locations

Project Details:

The Saint Paul Bike Plan, adopted in March of 2015, identifies Cleveland Avenue from Ford Parkway to University as a future bike route. Ramsey County completed a mill and overlay of Cleveland between Randolph and Summit in the fall of 2015. During the mill and overlay planning the City considered implementing bike facilities along that portion of Cleveland. In June of 2015 the Saint Paul City Council voted to delay implementation until a more robust community process could take place. With the northern half of Cleveland slated for a mill and overlay in 2016 the project area was expanded north to University Avenue and a Community Working Group was formed. For more background on the work to date, please visit: www.stpaul.gov/bikeprojects

Providing Feedback:

If you cannot attend the Open House, you can still provide feedback online on Open Saint Paul and via email to city staff.

To provide feedback, go to: <http://www.stpaul.gov/open>

Project Schedule:

The Community Working Group will present their recommendation to the City Council before December 1, 2015 and the Council will vote on the recommendation by the end of the year. Implementation schedule will be dependent on the recommendation and funding.
