

District 15 Plan Survey Questions

As part of our development of Highland Park's 2018 District 15 Plan we would like residents' feedback on the priorities that have been proposed for inclusion in the plan.

Background: The purpose of this plan is to provide a 10-year vision with objectives and strategies to guide growth, investment, and development in the district. The goal is to ensure that this plan fits with the City's Comprehensive plan, reflects the aspirations and visions of our neighborhood, and helps frame the objectives and strategies to guide future decisions involving commercial and residential development, green space, transportation, and transit opportunities in the Highland Park neighborhood. The council wants the report to, as its own mission declares, "foster opportunities for the people that live, learn, work and play in Highland Park to engage and connect with neighbors, businesses and local government and to help build a more vibrant, welcoming, and safe neighborhood."

The Draft District 15 Plan can be viewed at <http://highlanddistrictcouncil.org/highland-park-district-15-plan/>

The draft plan is the result of extensive community outreach including an online survey that drew more than 400 responses; outreach at Highland Fest, pop-up events at grocery stores, a portable park and other locations. In addition, the Task Force incorporated data and findings from a University of Minnesota study on aging that featured Highland Park as one of the two communities studied.

Please send your completed survey to:
Highland District Council, 1978 Ford Parkway, Saint Paul, Mn 55116
or complete it online at <https://www.surveymonkey.com/r/DBY2PJ5>

Thank you for your participation!

This survey will take just a few minutes to complete. Thank you for taking the time to provide information that will impact the future of Highland Park.

For each topic below please rank the actions listed in order of importance to you, with 1 being the MOST IMPORTANT.

Land Use

___ Support land uses that preserve and enhance Highland Park as a safe, desirable, and walkable neighborhood.

___ Encourage a mix of retail and services that meet every day needs close to where people live.

___ Assure that land uses create visual and physical connections that unite different segments of the neighborhood.

Transportation

___ Improve pedestrian safety and accessibility.

___ Increase bicycle accessibility.

___ Expand and encourage the use of transit.

___ Maintain safe and high-quality street and sidewalk surfaces and infrastructure.

___ Develop and improve traffic management to reduce congestion and promote lower speeds.

Parks and Recreation

___ Maintain and expand parks and recreational facilities.

___ Insure convenient and equitable access to parks and recreation facilities'

___ Preserve natural environment and habitat.

___ Seek and leverage public and private partnerships to share open space in the district.

Housing

___ Provide housing options, especially those promoting ownership for people of all ages, cultures, ethnicities and incomes have a place in the neighborhood.

___ Insure that new and renovated housing blends with the housing styles and scale of the neighborhood.

___ Support transit oriented housing development along major transit corridors (e.g. A-Line).

Environment and Water Resources

___ Insure a safe and affordable water supply system.

___ Reduce pollutant loads to water bodies.

___ Maintain and enhance green space and tree cover.

___ Support solid waste and energy consumption measures that promote environmental sustainability.

___ Identify ways to reduce light, air, heat, and noise pollution throughout the district.
